"60 PER CENT" DRINK KILLS

Long Island Woman's Death Caused by Lemon Extract

New York, Sept 14.—Thirsty souls in the vicinity of Riverhead, L. I., are assuaging their grief with lemon extract containing from 60 to 80 per cent alcohol.

Such is the finding of the police in investigating the death of Mrs. Joseph Stone, 27 years old, in the South ampton Hospital at Riverhead from lemon extract poisoning, the symptoms of which do not resemble those of wood alcohol poisoning.

The police say that during the past few months the sale of extracts in the section increased rapidly among those not at all interested in lemons. The army was the first to recognize the deleterious effects of the extract and forbade its sale at camps during the war and since.

GIBBONS ADVISES WOMEN.

Urges Newly Enfranchised Citizens To Vote As A Duty.

Baltimore, Sept. 14.—Now that women have been given the vote they should exercise this privilege "not only as a right but as a duty," Cardinal Gibbons, said today.

"While I always have been opposed to woman suffrage, because I felt that suffrage would withdraw them from the more delicate and more sacred pursuit of home life" said Cardinal, "now that they have been given the vote, I urge upon all of them the exercise of that suffrage not only as a right but as a duty. They should exercise that duty intelligently.

"It is their duty, both to register and vote, and especially in the coming presidential election. They should vote for the candidate who will in their opinion contribute best to the material and social progress of the State."

G. O. P. WINS IN MAINE

Parkhurst Wins Two to One

Portland, Maine, Sept. 14.—The Republicans swept the State in the election yesterday and elected Frederic H. Parkhurst as governor by the largest plurality ever given a gubernatorial candidate in Maine.

With only 42 isolated towns and plantations to be heard from, which cast a total vote of about 3,500 in the State election of 1916, Parkhurst's plurality over Bertrand G. McIntire, Democrat, was more than 64,000. The largest previous plurality was about 48,000, given the Republican nominee in 1896.

Aided by the women's vote, which went very largely to the Republican candidate, the party rolled up a total vote of more than 53,000 larger than that of 1916. While the Democratic total was increased over that year by only about 2,300. The Republicans elected congressmen from all four districts and obtained a larger majority in the legislature, besides electing their candidate for State auditor.

COX SAYS LIQUOR DEAD AS SLAVERY

Tells Oregon Audience The Question is Not An Election Issue

ON BUDGET SYSTEM

Governor's Voice Shows Improvement —His Hoarseness is Leaving Him Gradually.

Portland, Oreg., Sept. 14.—To an audience women yesterday afternoon Governor Cox made another statement in regard to the liquor question pledging himself to "enforce all laws, regardless of what interest may be affected."

The Governor's statement came near the close of his address today. "How about the liquor question?" a man yelled.

"I understand," the Governor replied, "that some newspapers out here have lost their interest in the league of nations.

"Apparently one of their readers is interested in a subject as dead as slavery."

Stating that he had invited questions regarding his policies, Governor Cox continued: "This is a country of free speech. You are entitled to know how I stand. This is a question of law enforcement. Let me tell you that while I was Governor of Ohio, before national prohibition, for the first time in history the front door and the back door of every saloon in Ohio was closed on Sunday."

Besides business and the budget, Governor Cox discussed the league, progressivism, radicalism and its prevention, and other subjects in his noon address here at the auditorium, which crowds overflowed. The speaker was aided by Senator Chamberlain who was praised by Governor Cox.

No member of Congress did more in helping to mobilize, governmentally, the resources of our country in the war, said the Governor. "He will be tremendously helpful in the task of readjustment."

Governor Cox again declared that Senator Harding, his Republican opponent, was the leader of reaction in Ohio, "as he now is in the nation." His audience cheered when the Governor said some Oregon newspapers also were leaders of reaction.

The Governor addressed two large audiences at the auditorium here, after speaking early today at the Salem Oreg., armory. There was marked improvement in the condition of his throat, and upon leaving late today for Eastern Oregon and Idaho, he expressed confidence that hoarseness would interfere little with the remainder of his Western trip.

To save his voice, however, the Governor planned to avoid outdoor addresses for a few days.

PLOT TO CONTROL LEAF WEED MARKET

Department of Justice and Trade Commissions Probe Charges Alleged

GROWERS INCENSED

Angry Farmers Haul Tobacco Back Home Because of Low Prices—Independent Buyers Shy of Money

Washington, Sept. 14.—The Department of Justice and the Federal Trade Commission are making investigations to ascertain if the "Big Four"—the American Tobacco Company, the Liggett & Myers Tobacco Company, the R. J. Reynolds Tobacco Company, and the P. Lorillard Tobacco Company—are not manipulating the leaf tobacco market to control buying prices.

Charging that prices of tobacco in the loose leaf markets of the country have declined because of conditions "brought about by manipulation among buyers," Representative William J. Field, of Kentucky, and others are demanding that the big dealers and manufacturers be tried under the Antitrust law.

Tobacco farmers of Eastern North Carolina, where the selling season has just opened 50 per cent below that of last year, are literally up in arms and threaten violence if the Federal Government does not act.

At Greenville, in the heart of a large tobacco-producing region, the warehouses were closed when angry growers announced that they would start a riot if the sales were not stopped. Other farmers hauled their tobacco back home, refusing to sell it. Indignation meetings were held at Greenville, Farmville, Wilson and Smithfield. While the auctioneers were selling the tobacco in the warehouses farmers forced them to stop.

Senator Simmons was instructed by constituents to call on the Secretary of the Treasury for money for the independent buyers, who are said to be unable to make proper financial arrangments with the banks to compete with the larger buyers. This afternoon Mr. Simmons conferred with Treasury Department officials and urged them to send funds to tobacco section of the State to move the tobacco crop. He told of the conditions there, and urged quick action to allay the bitter feeling aroused last week. He explained that prevailing prices are far below those of last year this time, and said conditions did not justify them.

It is alleged by farmers that because of the inability of independent buyers to get money from the banks the American Tobacco Company, the Liggett & Myers Tobacco Company, the R. J. Reynolds Tobacco Company, and the Imperial Tobacco Company are having things their own way.

These big tobacco concerns, the producers declare, are using the same methods to dominate the buying market as has been charged against the packers, who fix the price to the producers.

These are the charges the Department of Justice and the Fderal Trade Commission are investigating.

After the inquest Kuehling was sent back to the Tenth precinct police station, where he last night spent his fifth night in a cell.

Kuehling will be taken before the grand jury this morning at 10.30 o'clock. Decision to hold Kuehling for the action of the grand jury regardless of the coroner's verdict was reached yesterday morning by the district attorney's office.

ITALY ON BRINK OF REVOLUTION

Ability of Leaders to Control Workers Crucial Factors

MOVE UP TO PREMIER

Omnious Tranquility Prevades Milan As People Await Definite Action—Move one of Coercion

Milan, Sept. 14.—A 48-hour observation of the situation here and at Turin and talks with leaders on both sides of this amazing conflict convinces one that the avoidanceof a political and social revolution throughout Italy depends today upon two factors —the ability of the Government to dislodge the workers from the factories they have seized, without violence, and the ability of the labor chiefs to keep the extreme Bolshevik element in the unions under control.

Unquestionably the country is hovering upon the brink of a catastrophe the economic effects of which might be even worse than Russia's economic Calvary.

Within a few days, in the opinion of labor and capital alike, Premier Giolitti must take some definite stand. When that happens either normal conditions of production will be restored or cannon and machine guns will turn Italy's industrial centers into an Inferno, ghastlier than any pictured by Dante.

For the moment there is a tranquillity that is incomprehensible to those who have followed industrial conflicts in other lands. Superficially, save for red flags flying from factory roofs and the soviet hammer and sickle emblem painted on the factory walls, life here is unaffected by one of the most extraordinary phenomena yet produced in the age-long struggle.

The Milanese and their brethren of Turin work, eat, drink and make merry apparently unperturbed by the silent but none the less sinister battle going on in their midst. I have asked at least 20 Italians of all classes whether they think a revolution is at hand. "Maybe—who knows?" epitomizes their replies.

The movement which has found expression in the forcible seizure of their workshops by the workers while undoubtedly in direct defiance of law and order, nevertheless is not fundamentally revolutionary. The labor unions sought and are seeking not the the violent overthrow of the Italian monarchy, but acceptance of the pure ly trade demands they have formulated to the bosses. The occupation of the factories is in their eyes not a move to expropriate from the capitalists owners of those establishments but merely a form of coercion—an instrument of the same order as the strike.

The workers' troubles, however, have scarcely begun yet, for the business of seizure was easy enough, since it was carried through wholly without opposition.

Now that they are in, however, the victors are confronted with the triple task of operating the factories, obtaining raw materials and fuel and marketing the goods they produce.

PREVENTABLE FIRES.

Apropos of Fire Prevention Week there is the case of the Indiana farmer whose $5,000 barn burned to the ground as the auctioneer was finishing a livestock sale which did not total $5,000.

Need anyone be told that a careless smoker in the crowd at the sale dropped a cigar butt in the barn? Barns are not subject to fires from defective flues or furnace pipes. They go up in smoke like tinder if a smoker is careless.

Among the major factors in America's most preventable losses by fire are, the unsafe flue, which may be seen in use in any American city during the course of a street car ride; defectively protected furnace pipes, defective electric wiring and carelessly handled cigarette and cigar matches.

Every one of the losses by fire which could be prevented by ordinary caution. They are reflected directly in high rates for fire insurance. They are reflected less obviously, but as surely, in commodity prices. Every business must take care of its overhead expense and insurance against fire is an unavoidable expense.

Construction, from the fire underwriters' point of view, is notoriously bad in American cities and in rural America. Wood buildings, shingle roofs, tile flues contribute enormously to the preventable waste of human labor and building materials. But the careless smoker costs the ultimate consumer of all commodities far more than the loss occasioned by the traditional cow which kicked the lantern over and started the great Chicago fire.

Two minor American cities, Wilmington, Del., and Wilkes-Barre, have laws under which there are no wooden construction is permitted. Possibly there are a few others. Possibly but not probably, there are American cities in which ordinances looking to fire prevention are really rigidly enforced. There is no city, no town, no hamlet, in which the burning cigar or cigarette butt is not handled carelessly. The careless smoker is in the minority, no doubt, yet he is carried by the consumers of commodities at a cost of millions a year. Everybody contributes to the cost of his nonchalant habit of flicking the burning butt aside without considering its potentialities.

"Stockyard laborers wearing $18 shirts want more money." Nothing easier to understand. An established rule of living makes inexorable demands.

That a United States mail plane was wrecked attempting to land in a cornfield near Chicago will give you an idea of the tremendousness of the Illinois corn crop this year. Each ear is like a heavy projectile.

Of course, Georgia might have done worse. Might, for example, have disposed of Tom Watson's opponents by lynching.

The Attorney General has fined sundry sugar profiteers. But he hasn't fined 'em enough or maybe not enough of 'em. Sugar still isn't a bargain.

WOMAN AVERTS "L" WRECK.

Telephones Warning Of Spiked Switch In Time To Save Train.

New York, Sept. 14.—A warning by telephone from a woman living near the tracks of the Fulton street elevated line, in Brooklyn, today probably averted the most serious accident of the series which have marked the present strike of employs of the Brooklyn Rapid Transit Company.

The woman phoned police headquarters that she had seen men tampering with the tracks of the elevated. Detectives sent to investigate found that a spike had been driven between the switching points of the outer track in such a way that the next express train might have been derailed and thrown to the street. The express train was flagged by the detectives just before it reached the spiked switch.

Eight passengers on a Brooklyn Rapid Transit surface car were seriously injured and two of them probably will die as the result of an accident today. The men were hanging on the running board of the car when a truck crashed into it.

BABY NURSES JUG OF BOOZE IN 10 DAYS, FATHER SWEARS

Hammond, Ind., Sept. 14.—Mike Dragoll has a baby which will be a husky woman some day. Since May, Mike says, she has consumed at least two jugs of moonshine, besides getting an occasional nip from her mother's private bottle of kimmel.

Mike has a little store on Dearborn street, Hammond, and today the police dropped in for the third or fourth time this year because people had reported he was selling liquor. A jug with about two pints of moonshine in it was found under the counter. The wife's kimmel bottle also was discovered.

In police court this morning Mike insisted that he always kept some liquor on hand for the baby and that his wife had her own stock. Officer Singer reminded him of finding the jug empty only a short time ago when he visited the store.

This piled on the boby the responsibility of drinking a jug of liquor in about ten days. Judge Kotz was plainly skeptical. He decided Mike should pay $100 and costs.

15 SHOTS KILL ELEPHANT.

Three Rounds From Five Rifles Needed to Fell Mad Beast.

Salin, Kans., Sept. 14.—It required three rounds from five army rifles here today to kill "Snyder," a trained elephant belonging to a circus showing here. The animal had gone mad just as the circus was about to open and hundreds of persons were massed about the animal tent.

Before being killed the elephant upset many cages containing other animals and threw one cage, containing four lions, 30 feet. The afternoon circus performance had to be abandoned. The elephant was valued at $10,000.

WOMAN LEFT TO DROWN SAVED BY PHILA. GIRL

Atlantic City, N. J., Sept. 14.—Deserted by the man with whom she had been bathing when they were swept into deep water, a young woman who refused to give her name, is believed to be from Wilmington, was saved from drowning late last evening by the coolness and bravery of Miss Madeline Schenadell, of Philadelphia, who is spending the summer here.

The young woman and her male escort were bathing in the water at the foot of Tennessee avenue when they were swept beyond their depth. The man was a strong swimmer, but instead of helping his companion struck out for shore. The young woman's cries for help were heard by Miss Schenadell, who at once went to her assistance. She is a good swimmer and held her up.

Lifeguards Hughes and Eble brough them both ashore.

MAYOR WEAKER AS END NEARS

London, Sept. 14.—Terence McSwiney, the hunger-striking Lord Mayor of Cork, was alive and retained unimpaired mental faculties last night as he completed his thirty-second day without food.

He was so weak, however, that his wife, who was at his side practically all day, did not speak to him. She feared the exertion would be put to in listening or an attempt of his to talk to her might prove fatal.

The slowly dying man gained some rest during the night and early in the morning was able to utter a few words. He complained of a growing feeling of numbness.

GREAT FACTORY TO MAKE SILK

A gigantic artificial silk factory will soon be erected in the United States by a corporation having an initial capital of $5,000,000, it was announced by the Department of Commerce yesterday. A Belgian process of manufacture will be used. Neither the identity of the company nor the location of the proposed plant was revealed.

At no time since the war has the supply of artificial silk been equal to the demand, it was stated. The United States imported 2,251,927 pounds valued at $8,690,952 during the fiscal year 1920, but produced only a negligible amount.

One Belgian company with half its equipment destroyed by the war cleared two million francs in four months in 1919, it was stated.

U. S. Has $2,225,00 And Doesn't Know Where It Came From.

Chicago, Sept. 14.—Local internal revenue officials today began an investigation of the presence of $2,225,000 in the Federal Building vaults with no record of its source.

The presence of the surplus money was discovered when officials of a corporation called in to explain why they had failed to pay $225,000 taxes, produced receipts showing they had paid.

The money was found in the vault, but the Government's duplicate receipt had been lost and no record made on the books. The remainder of the $2,225,000 is believed also to have been collected as income taxes.

VIRGINIAN KILLS TWO THEN ENDS OWN LIFE

Man At Roanoke Shoots Brother And Neighbor Before Committing Suicide.

Roanoke, Va., Sept. 14.—After killing his brother and shooting a neighbor, who sustained injuries from which he died at noon today, Guy Tarpa turned the weapon on himself, sending a pistol ball through his heart, dying instantly. The triple tragedy occurred yesterday at the Tarpa home, 504 Gilmer avenue.

The dead:

D. C. Howell, said to be a Norfolk and Western Railway employe, this city.

Guy Tarpa.

Joe Tarpa, laborer, 38 years old, this city.

With his sister and brother-in-law, Rosa and Joseph Mori, and Joseph Cadasca and Mary Cadasca, the latter neighbors, Joe Tarpa was sitting in the back of their home, Guy Tarpa, who formerly lived here and who came to Roanoke Saturday afternoon from Cincinnati, Ohio, came rushing down the stairs, shouting at the top of his voice. His brother arose and darted forth to ascertain what the trouble was. Without any warning Guy Tarpa opened fire, one of the first shots striking his brother, who crumpled in a heap, dying within five minutes.

Howell, a neighbor, hearing the shots, came out to see what had happened. A pistol ball struck him almost as soon as he peered into the back porch of the Tarpa home. He never regained consciousness.

PANIC FOLLOWS SHIP ACCIDENT

Scores of Women in Hysterics When Steamer Rams Dredge.

Philadelphia, Sept. 14.—Thrilling rescues and a panic of 200 people, scores of them women, followed the ramming of the Wilson Line steamer, City of Chester, into a suction dredge, anchored 150 feet off the Philadelphia Navy Yard shortly after 1 o'clock this afternoon.

Responsibility for the crash had not yet been established late last night.

Barbara Talley, 15 years old, who lives near Wilmington, Del., was climbing through a cabin window of the passenger boat when the crush of bodies behind her made her slip. She fell screaming into the river.

As she was about to be swept under a navy yard lighter coming to the rescue of passengers, a navy yard worker jumped overboard and saved her.

The City of Chester's bow struck the dredge squarely amidship, plunging in a distance of fifteen feet and passing two boilers. The rail of the passenger boat was torn away eight to ten feet and the bow crumpled.

Kicked by Horse, Struck by Auto Farmer Finds No Luck in Sept. 13.

Bloomsburg, Pa., Sept. 14.—Yesterday was an unlucky day for Walter Blohn, farmer, of near here. After he had been kicked by a horse, inflicting a gash in his right leg, he started to drive to a doctor's office here to have the wound dressed. On his way, he was struck by an automobile and the buggy in which he was riding was wrecked. A passing friend brought him into town. Blohn was unhitching his horse at his barn when the animal kicked him.

Another accident occurred in almost the same manner this morning, as the result of which Mrs. Hervey Townsend, of Light street, is in a serious condition in the Bloomsburg Hospital. She had gone into the stall to hitch up her favorite horse when the animal kicked her and after knocking her down trampled on her. She sustained a fractured left leg and deep cuts on the back and about the body.

MOVIES

RICHMOND—MARRIED LIFE.

Which are the funniest parts of the human body to picture fans—the eyes or the feet. A comparison of Charlie Chaplin's pedal extremities and Ben Turpin's twister orbs would be worth while. If we are to judge from the number of laughs that Ben gets in the new Mack Sennett five-reel comedy, "Married Life" which plays again at the Richmond tonight the funny eyes have the day.

INGOMAR—"Old Wives for New"

Admittedly one of the most charming pictures depicting social conditions in American society, "Old Wives for New," a superb Paramount Artcraft picture, produced by Cecil B. DeMille, will be shown at the Ingomar Theatre today. The photoplay is a picturization of David Graham Phillips' famous novel, and the adaption was made by Jeanie Macpherson, author of "Joan the Woman" and other notable photoplays.

This is a superlative motion picture Briefly, the story deals with the lives of a man and woman who marry young. The wife becomes slovenly and obese, while the husband gains rather than loses, in every way.

COMEDY PLEASES ALL.

Featuring a galaxy of comedy stars that has never before been assembled for any one picture, the best laugh-producer that has been shown in this city in a number of years, was presented to capacity crowds at the Richmond theatre last night, and even greater attendance is promised for tonight, when the final showing of Mack Sennett's great fun festival, "Married Life", will be presented.

The picture contains a lineup of almost every star of importance in the Sennett corral, headed by the inimitable Ben Turpin, and is, without question, the funniest comedy that has been produced in some time. The picture is a burlesque on married life and the audience went into convulsions early in the game and remained in that state until the finish. This big picture will be repeated tonight for the last time.

HAS THREE WIVES

Philadelphia Girl, Last on List, Causes Arrest of Camden Veteran

Philadelphia, Sept. 14.—"I just met them and married them," declared John H. Glenn, 23 years old, of Camden, when arraigned before Magistrate Carson in City Hall yesterday on a charge of bigamy.

Married on July 13 to a local girl, who eloped with him to Elkton, Md., Glenn is now said to have been married twice before in the past two years. The allegations of his former marriage were made by Wife No. 3, formerly Miss Dorothea Huntington, 19 years old, of Seventeenth and Walnut streets, who stated she was informed of her husband's former marriage by Miss M. A. Cole, War Risk Insurance agent, in the Emergency Fleet Building.

Glenn, Miss Cole alleged, has been drawing $100 a month compensation for injuries received while a member of the 358th Motor Transport company. In blanks he had to fill out in the past two years he has given conflicting addresses, she said. In addition to an investigation by War Risk officials complaining letters were sent by two women, claiming to be the wife of Glenn. Wife No. 1 is said to have been a Miss Belle Stone, a vaudeville actress of Little Rock, Ark., whom Glenn married early in 1919 in Louisiana. His second venture, according to Miss Cole, in Chicago, where he married a Miss Beatrice Harcourt early this year.

Glenn has been employed as a brakeman on the Atlantic City division of the Philadelphia and Reading Railroad. In May he met Miss Huntington, who is a telephone operator in the Land Title Building. A two months' courtship resulted in their elopement to Elkton where they were married by Rev. Mr. Moore, on July 13. A few days ago Miss Cole called on Mrs. Glenn and told her of prior claims on her husband. Prosecution was immediately started, Glenn having been arrested yesterday as he was bidding good-bye to his wife, intending to leave for Florida.

Glenn, when arraigned was dressed in a green suit. He did not appear to have the high percentage of magnetism which would attract three women to the altar in two years. Mrs. Dorothea Glenn is small, attractive and was well dressed. Her mother, who is a demonstrator for a perfumery company, managed the prosecution yesterday, shielding the daughter from reporters, and allowing her only to address Magistrate Carson.

Glenn was held under $1,000 bail for further hearing in two weeks, during which time an effort will be made to locate the former wives or uncover the records of marriage.

A big-scale road test on 3,200 tubes

How Firestone puts the miles in — and then proves it—not at YOUR expense.

No other tubes in the world are road tested on so big a scale as Firestones. The Yellow Cab Company of Chicago uses Firestone Tubes exclusively on its 800 taxi cabs. The service of these tubes is checked constantly—improvements and developments are arrived at.

By close watching of a large number of tubes in service—not confined to isolated instances, the conclusions are accurate and definite.

Firestone puts the best in materials into tubes by establishing purchasing experts at Singapore, center of the world's rubber market. Firestone puts the best in workmanship into tubes by organizing the crack manufacturing organization of the industry on a profit-sharing basis.

And then subjects the finished product to this big-scale road test—in order to get you more for your tube money and more miles out of your tires. And yet Firestone Tubes cost no more than the ordinary kind.

IN MEMORIAM

In sad but loving remembrance of our dear and devoted husband and father, GUSTAVUS ROBEY, who departed this life two years ago today, September 14, 1918.

Two years have passed, our hearts are still sore,
As time goes on we miss you more.
Your memory is as sweet today,
As in the hour you passed away.

A precious one from us has gone,
A voice we loved is still,
A place is vacant in our home
Which never can be filled.

You are gone, but not forgotten,
Dear, our love will ever be
For as long as there is memory,
We will always think of thee.

His devoted wife and children.
220-1p.

SCHAFE—Sacred to the memory of our beloved son and brother—Wm. SCHAFE, departed this life, one year ago today.

We stood beside the bedside,
We saw his life depart
And when we saw that he was dead
It nearly broke our hearts.

How hard we tried to save him,
Prayers and tears were all in vain,
Happy angels come and bore him,
From this world of grief and pain.

We shall never cease to love you,
Though your form be in dust,
And some day we will be with you,
To this end in God we trust.

By his devoted mother, brothers and sisters. 220-1p

CATHEDRAL WORK BEGUN

Digging For Foundation of Episcopal Synod Hall Under Way

Baltimore, Sept. 14.—Work was begun on the digging of the foundation for the Synod Hall, first unit of the $5,000,000 group of buildings of the Protestant Episcopal Cathedral of Maryland, at University Parkway and Greenway.

The contract for the building itself, which will cost about $330,000, has not yet been let.

Philadelphia, Sept. 14.—The United States shipping board today announced the sale of five Hog Island built ships for $7,238,123 to the American Fuel and Transportation corporation. This is at the rate of $185 a dead-weight ton.

BOY, AGED 14, HAS ANTHRAX

Porto Rican Youth Youngest Such Patient Listed at Bellevue.

New York, Sept. 14.—Arthur Saldana, 14 years old, said to be the youngest anthrax patient ever taken to the Belevue Hospital, was admitted here today.

The boy is a Porto Rican and was on his way to enter the Classon Point Military Academy in the Bronx. He left his home several days ago. On the ship he complained of a mosquito bite and the ship's doctor at first treated him for erysipelas, but the pain did not abate. Immediatey upon his arrival in this city he was taken to the hospital where the doctors declared the case to be anthrax and at once began to administer serum. Last night the boy's condition was said to be encouraging. He is receiving injections of the antianthrax serum every four hours.

BELFAST'S TOLL 52

Total Deaths Since July Exceed Those In Riots Of 1886 By 21.

Belfast, Sept 14.—John Toner, of Belfast, was shot dead while proceeding along the Newtownards roads after curfew Saturday, making the thirty-second riot victim here, or, including the July disturbances, the fifty-second.

The total deaths in the 1886 riots heretofore reckoned the worst in the city's history, were 31. Fifty-eight arrests were made in Belfast Saturday night after the curfew hour.

Armed raiders visited the Torr Head Coast Guard Station last night and seized arms, ammunition, telescopes and other articles.

Charlie Chaplin's Wife Asks $1,500.00 From Him.

New York, Sept. 14.—Mildred Harris Chaplain, wife of the comedy king, has come East to fight it out with her husband. This time, she had told her attorney, she isn't so anxious to give Charlie his freedom. All she wants is half his estate—Roughly speaking $1,500,000—which she understands he is holding out on her.

The trouble began in the moving picture colonies of the Far West. It will be finished, in al probability, in the courts of the East.

Mrs. Chaplin started her action in California. Then Charlie hot-footed it to New York, leaving the jurisdiction of the court in which the proceedings were started. Now Mrs. Chaplin arrives on the scene. But she has changed her mind. She isn't going to give him the satisfaction of a divorce.

In the meantime nimble Charlie is stopping at the Ritz-Carlton—and he isn't being interviewed.

BRIDE SWEPT TO DEATH FROM HONEYMOON CRAFT

Racine, Wis., Sept. 14.—After clinging for 18 hours to his overturned motor boat, six miles from Racine, John A. Jones—Jack Jones, of the Chicago Dill Pickle Club—was rescued by a tug and now is in a serious condition at a hospital in this city.

In addition to the exposure, injuries and despair of the wreck, Jones witnessed the drowning of his bride of a few weeks. She clung to the overturned boat for 10 hours, but her strength was exhausted and an unusually heavy wave swept her away and she perished in sight of her husband, who was unable to offer any assistance. She was Anna Mitchell, a portrait painter, of New York.

The pair were on a honeymoon trip. Jones secured a divorce last July from his first wife who was Elizabeth Flynn, a widely known Socialist. The parents of Miss Mitchell objected to her marrying Jones, so they eloped and were married in Crown Point, Ind., August 13.

Seven Dying In Cork Jail.

Cork, Sept. 14.—Seven of the 11 hunger strikers in Cork Jail appeared today to be in a critical condition. They are Sean Hennessy, a 19 year old youth; Joseph Murphy, whose status as an American is being investigated; Thomas Donovan, Michael Burke, Upton, Power, and Kenny.

Hennessy still was unconscious today and the others were so weak that they were hardly able to articulate. Murphy has a troublesome cough, for which he refuses treatment, either by the doctors or nuns.

Harold Barry, former high sheriff of Cork, who has been striving to save the lives of some of the hunger strikers here, received a message from the Irish Office, London, late today asking him to meet immediately with the heads of the police in Cork for the purpose of reviewing the Government's case against Hennessy and Murphy, and any others in connection with new evidence which may be produced.

Barry is now scouring the city for a young friend of Hennessy, who has asserted he can prove a complete alibi for the dying hunger striker. Barry says he hopes to obtain the release of Hennessy and perhaps the release of several other prisoners if witnesses are found.
